**\$ 146,214,899 NAV per share \$ 2.1784**

<sup>1</sup>Urbana's future tax liability is calculated based on the tax cost of Urbana's investments, not book cost. With the exception of the NYSE Euronext shares, the tax cost of all Urbana's investments is the same as the book cost. In the case of the NYSE Euronext shares, the tax cost of these shares is lower than their book cost as shown above due to a section 85 roll-over used by Urbana to purchase additional NYSE Euronext shares in November 2007. For further details on the tax cost of the NYSE Euronext shares, please refer to Urbana's 2007 and 2008 audited financial statements.

<sup>2</sup>Investment in StoneCap Securities Inc.

<sup>3</sup>Future tax liabilities/assets fluctuate depending on the realized and unrealized gains/losses of the investment portfolio on the valuation day. Where the balance is a future tax asset, it represents a tax benefit. Urbana's policy with respect to recording a tax benefit is to review and determine the amount of such tax benefit to be recorded on a regular basis based on a number of factors, including historical income, taxes paid, market conditions and likelihood of the recovery of the tax balance. Urbana's policy is to ensure that the tax asset recognized is consistent with the amount that can be recognized in accordance with Canadian Generally Accepted Accounting Principles.
