

# URBANA CORPORATION

## MANAGEMENT'S DISCUSSION AND ANALYSIS

For the six months ended June 30, 2020

This Management's Discussion and Analysis ("MD&A") supplements, but does not form part of, the unaudited condensed interim financial statements of Urbana Corporation ("Urbana" or the "Corporation") and notes thereto for the six months ended June 30, 2020 (the "Interim Financial Statements") and the audited financial statements of Urbana and notes thereto for the year ended December 31, 2019 (the "Annual Audited Financial Statements"). Consequently, the following discussion and analysis of the financial condition and results of operations should be read in conjunction with the Interim Financial Statements and the Annual Audited Financial Statements, both of which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts shown in this MD&A, unless otherwise specified, are presented in Canadian dollars. This MD&A is current as of August 12, 2020. The Corporation's Audit Committee reviewed this document, and prior to its release, the Corporation's Board of Directors approved it, on the Audit Committee's recommendation.

You can obtain information relating to the Corporation, including the Corporation's annual information form and Annual Audited Financial Statements, at no cost, by calling Urbana collect at (416) 595-9106, by writing to us at: 150 King Street West, Suite 1702, Toronto, Ontario M5H 1J9 or by visiting our website at [www.urbanacorp.com](http://www.urbanacorp.com) or the SEDAR website at [www.sedar.com](http://www.sedar.com).

### REPORTING REGIME

Urbana is subject to National Instrument 51-102 ("NI 51-102") *Continuous Disclosure Obligations* and is required to file annual and interim Management's Discussion and Analysis. For accounting purposes, Urbana is treated as an investment entity under IFRS.

### NON-GAAP MEASURES

The Corporation prepares and releases audited annual financial statements and unaudited condensed interim financial statements in accordance with IFRS, but complements IFRS results in this MD&A with the following financial measures which are not recognized under IFRS and which do not have a standard meaning prescribed by IFRS: "net assets per share", "total return of net assets per share" and "compound annual growth rate of net assets per share since inception".

#### *Net assets per share*

The three financial measures used to calculate "net assets per share", namely assets, liabilities and number of shares outstanding, are individually recognized under IFRS, but "net assets per share" is not. The calculation of net assets per share as at June 30, 2020 and December 31, 2019 is presented in the following table:

	June 30, 2020	December 31, 2019
Assets (\$)	247,526,731	290,705,461
LESS Liabilities (\$)	14,264,712	37,179,968
EQUALS Net Assets (\$)	233,262,019	253,525,493
DIVIDED BY Number of Shares Outstanding	48,569,127	49,563,600
EQUALS Net assets per share (\$)	4.80	5.12

### *Total return of net assets per share*

The total return of net assets per share over a given period refers to the increase or decrease of Urbana's net assets per share over a specified time period, expressed as a percentage of Urbana's net assets per share at the beginning of the time period, assuming that each dividend paid during the period was reinvested at a price equal to the net assets per share at the relevant time.

### *Compound annual growth rate of net assets per share since inception*

Compound annual growth rate ("CAGR") of net assets per share since inception is the compound annual growth rate of Urbana's net assets per share from October 1, 2002, when Caldwell Investment Management Ltd., the investment manager of Urbana, started managing Urbana's investment portfolio, to the end of the period in question.

We calculate CAGR of net assets per share since inception by dividing Urbana's net assets per share at the end of the period in question by its net assets per share at inception (i.e. October 1, 2002), raising the result to the power of the quotient obtained by having one divided by the number of years representing the period length, and subtracting one from the subsequent result.

The Corporation provides the three non-IFRS measures indicated above because it believes each measure can provide information that may assist shareholders to better understand the Corporation's performance and to facilitate a comparison of the results of ongoing operations. No measure that is calculated in accordance with IFRS is directly comparable to or provides investors with this net assets per share information. As a result, no quantitative reconciliation from "net assets per share" to an IFRS measure is provided in this MD&A.

Non-IFRS measures should not be construed as alternatives to net comprehensive income (loss) determined in accordance with IFRS as indicators of the Corporation's performance. CAGR of net assets per share since inception describes the historical rate at which Urbana's net assets per share would have increased at a steady rate. This single historical rate is only an illustration and does not represent the actual annual growth rate of Urbana's net assets per share in any given year. The growth rate of Urbana's net assets per share in any given year since 2002 may have been higher or lower than the CAGR of net assets per share due to market volatility and other factors.

## **BUSINESS OBJECTIVES AND STRATEGIES, AND RISK FACTORS**

The business objectives and strategies of Urbana are to seek out, and invest in, private investment opportunities for capital appreciation and to invest in publicly traded securities to provide growth, income and liquidity. Urbana has the scope to invest in any sector in any region. There were no material changes to Urbana's investment style during the second financial quarter of 2020 ("2020 Q2") that affected the overall level of risk associated with investment in the Corporation. Some of the risk factors associated with investing in Urbana are described in Urbana's most recent annual information form, which is available on the Corporation's website at [www.urbanacorp.com](http://www.urbanacorp.com) and on SEDAR at [www.sedar.com](http://www.sedar.com). Risks and uncertainties that may materially affect Urbana's future performance include individual corporate risk, macroeconomic risk, currency risk and product price risk.

## **OVERALL PERFORMANCE AND DISCUSSION OF OPERATIONS**

The six months ended June 30, 2020 can be summarized by paraphrasing Charles Dickens: "It was the worst of times, it was the best of times..."

The first calendar quarter of 2020 was dominated by peering into the COVID-19 abyss. No one could measure its potential impact and possible devastation.

As markets do not like uncertainty, there was a rush for the doors. During that period, Urbana lightened some positions, paid off our trading line of credit and built cash reserves. Prudent, but not particularly productive. Urbana continued some selling into the early part of 2020 Q2.

As we entered the second quarter, a greater calm emerged as cases appeared to decline and hospitals were not overwhelmed. Also, more focused treatments of COVID-19 cut mortality rates and pharmaceutical companies entered the race to develop a vaccine.

We did add to some of our energy positions in the second quarter as that area appeared to be the most depressed. We also added to our financial services sector.

During 2020 Q2, Urbana's net assets per share increased from \$4.13 to \$4.80, resulting in a 16.2% total return of net assets per share. During the same period, the S&P/TSX Composite Total Return Index ("S&P/TSX Index") increased by 17.0% and the Dow Jones Industrial Average Total Return Index (converted to Canadian Dollars) ("DJIA Index") increased by 14.4%.

During the first half of 2020, Urbana's net assets per share decreased from \$5.12 to \$4.80, after the payment of a dividend of eight cents (\$0.08) per share<sup>1</sup> in January 2020, resulting in a 4.8% negative total return of net assets per share. During the same period, the S&P/TSX Index decreased by 7.5% and the DJIA Index decreased by 4.3%.

Urbana's long-term performance, represented by its CAGR of net assets per share since inception to June 30, 2020, was 13.8%. This compares favourably with the CAGR of the S&P/TSX Index of 8.2% and the CAGR of the DJIA Index of 8.9%, for the same period.<sup>2</sup> Our long-term goal is to strive for and maintain superior long-term performance.

Urbana still has buying power as we enter the third quarter.

After the June 30, 2020 quarter-end equity markets continued their upward trend.

Clearly, Real Matters (TSX: REAL) has continued to be a stand out winner in our portfolio. We also feel the financial services sector will be a long-term winner.

Our energy component is now lifting off its COVID-19 crisis low. We believe the world will continue its dependence on hydrocarbons for some time to come.

Equity markets, beyond the obvious performers such as the technology and communication companies, still have areas of depressed share prices. One such group is the smaller to mid-cap sector where innovative companies can have excellent potential. This is an area where, for various reasons, market efficiencies do not exist. This group does, however, require in-depth specific research into smaller and mid-sized companies. We are currently exploring ways to participate in that sector.

---

<sup>1</sup> The common shares and the Class A shares participate equally in dividends.

<sup>2</sup> The CAGR of the indexes is calculated in the same way as the CAGR of net assets per share since inception.

Our current private equity component has, in the opinion of management, significant upside potential. CNSX Markets Inc., the operator of the Canadian Securities Exchange, is one such holding.

The present price environment for gold increases the potential of Urbana's doing a deal on its Urban Township gold prospect in the coming year. We will be exploring some possibilities in this regard.

Looking forward to the balance of 2020, we see U.S. presidential election rhetoric as creating significant background static. China will be a feature in this exercise and potential trade repercussions could be problematic. That notwithstanding, a COVID-19 breakthrough may provide a degree of market optimism. We are of the opinion it will and economies will begin to rebuild after the prolonged shutdown. Low interest rates will also fuel the demand for real assets and equity ownership.

Urbana has recommenced its share buyback program (Normal Course Issuer Bid). Under TSX rules, we are currently permitted to purchase 3,786 "A" shares per day, but we can purchase one larger block from any one broker per week. To date, we have been able to locate some large sellers and, given the price of Urbana's "A" shares, we are open to more such purchases.

In 2020 Q2, dividend income was \$648,107, down from \$756,625 in the second quarter of 2019 ("2019 Q2"). This decrease stemmed primarily from the sale of some of our Canadian dividend paying stocks, namely CIBC, Inter Pipeline, Power Financial and Teck Resources. In 2020 Q2, interest income amounted to \$184,050, up from \$2,064 in 2019 Q2. 2020 Q2 revenue reflects interest on promissory notes held by Urbana in Highview Financial Holdings Inc. and Radar Capital Inc. as well as on convertible notes held by Urbana in Kognitiv Corporation and Vive Crop Protection Inc. The Kognitiv and Vive notes were converted into equity securities during the latter part of 2020 Q2.

Urbana realized a net gain of \$14.0M from the sale of investments in 2020 Q2 (2019 Q2 - \$286,079). This gain stemmed primarily from the disposition of Kirkland Lake (\$2.3M) and from the disposition of a portion of Urbana's investment in Real Matters (\$12.2M). These gains were partially offset by a net loss on the sale of other holdings.

Urbana recorded \$23.1M in unrealized gains in 2020 Q2 (2019 Q2 - \$10.0M). The best performer during 2020 Q2 was Real Matters, which contributed an increase in unrealized gains of \$10.9M. Other strong performers that generated unrealized gains included Morgan Stanley (\$3.8M), Caldwell India (\$1.6M), Citigroup (\$1.6M), Whitecap Resources (\$1.5M), AGF Management (\$1.4M), CIBC (\$1.2M) and Four Lakes (1.1M).

During 2020 Q2, Urbana recorded net income before income taxes of \$36.3M (2019 Q2 - \$9.7M) primarily due to \$23.1M in unrealized gains on investments. Investment management fees in 2020 Q2 were \$1.3M, up from \$1.0M in 2019 Q2 due to an increase in the management fee from 1.5% to 2.0% per annum. Interest expense in 2020 Q2 amounted to \$1,096 compared to \$1,994 in 2019 Q2 since Urbana's borrowings under its loan facility were minimal in both quarters. Transaction costs in 2020 Q2 were \$10,886, down from \$37,750 in 2019 Q2, since 2020 Q2 transaction costs in respect of all trades, excluding normal course issuer bid trades, are absorbed by Caldwell Investment Management Ltd. ("CIM" or the "Manager"). Professional fees, comprised of audit

fees and legal costs, were \$81,170 in 2020 Q2, up from \$68,707 in 2019 Q2, primarily due to increased legal fees related to a special project in 2020 Q2. Administrative expenses in 2020 Q2 were \$347,750, up from \$255,387 in 2019 Q2, primarily due to increased marketing expenses and because certain expenses incurred in 2020 Q2 that were also incurred in 2019 were paid in a different quarter in 2019, thus representing a timing difference. Foreign withholding tax expense in 2020 Q2 was \$9,006, down from \$67,703 in 2019 Q2 due to the recovery, in 2020 Q2, of excess withholding taxes that had been deducted in a prior period. A deferred income tax expense of \$3.5M has been recorded in 2020 Q2 (2019 Q2 - \$143,000) primarily due to the unrealized gains recorded during 2020 Q2.

Urbana purchased and cancelled 994,473 non-voting Class A shares (“Class A shares”) in 2020 at an average price of \$2.38 per Class A share. Subsequent to June 30, 2020, Urbana purchased an additional 579,100 Class A shares at an average price of \$2.36 per Class A share. Since May 2010, Urbana has purchased and cancelled a total of 39,536,293 Class A shares under its normal course issuer bid programs. The number of Class A shares now outstanding is 37,990,027.

### Past Performance

The performance information presented in this section shows how Urbana has performed in the past and does not necessarily indicate how it will perform in the future.

#### Year-by-Year Performance

The following bar chart shows the net assets per share performance of Urbana’s common shares for the financial periods indicated. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period based on the net assets per share of Urbana, assuming that each dividend paid during the period was reinvested.

Urbana’s Class A shares, which have the same rights as the common shares as to dividends and upon liquidation, are treated as if they are common shares for the purposes of the net assets per share calculation.

## Summary of Investment Portfolio as at June 30, 2020

The following data is extracted from Urbana's Interim Financial Statements:

Number of securities	Description	Cost (\$)	Fair value (\$)	% of Portfolio Fair Value

(i) Urbana owns 65.51% of Radar Capital Inc. ("RCI"), which owns 25.62% of the common shares of Highview Financial Holdings Inc.

(ii) Urbana owns 23.71% of Caldwell Growth Opportunities Trust, which owns 5.50% of the Class B common shares of RCI.

(iii) Caldwell India Holdings Inc. ("CIHI"), a wholly-owned subsidiary of Urbana, holds 672,832 equity shares of the Bombay Stock Exchange (the "BSE"). Urbana also owns 100 voting ordinary shares of CIHI representing 100% of the voting ordinary shares of CIHI. The fair value of these voting ordinary shares is nominal.

(iv) Urbana Mauritius Inc., a wholly-owned subsidiary of Urbana, holds 343,238 equity shares of the BSE.

(v) Unsecured convertible promissory note maturing on June 30, 2023 with interest at 8% per annum payable quarterly. This promissory note was issued in connection with a \$3 million revolving line of credit and is convertible (in whole or in part) into common shares on the maturity date at \$1.07 per common share.

(vi) Unsecured promissory note maturing on July 31, 2024 with interest compounding annually at the TD Canada Trust prime rate less 1% per annum payable on the maturity date.

In addition to the investments listed above, Urbana holds 44 mining claims in Urban Township, Quebec. No mining expenditures were incurred in 2020 or 2019.

The above summary of the investment portfolio may change due to ongoing portfolio transactions. Weekly and quarterly updates are available at Urbana's website at [www.urbanacorp.com](http://www.urbanacorp.com).

### **Demand Loan Facility**

On February 15, 2008, Urbana entered into a demand loan facility with a major Canadian chartered bank (the "Bank"). On March 2, 2015, the loan facility agreement was amended to allow Urbana to borrow up to \$25M. Interest is charged on the outstanding balance of the loan facility at the Bank's prime rate plus 1.25%, calculated on a daily basis and paid monthly. The loan facility is secured by a general charge on Urbana's assets. Loan proceeds may be used to make additional investments and/or for general corporate purposes. As at June 30, 2020, the outstanding balance of the loan was \$1.9M. The minimum and maximum amounts borrowed during 2020 Q2 were \$Nil and \$19.2M respectively. As at the date of this MD&A, the Corporation has complied with all covenants, conditions or other requirements of the loan facility.

### **Normal Course Issuer Bid**

On August 29, 2019 the TSX accepted a notice of intention to conduct a normal course issuer bid from Urbana to purchase up to 3,963,322 of its own Class A shares (the "2019 NCIB"), representing 10% of the public float, pursuant to TSX rules. Purchases under the 2019 NCIB were permitted starting on September 4, 2019, and will terminate on the earlier of September 3, 2020, the date Urbana completes its purchases pursuant to the notice of intention to conduct a normal course issuer bid filed with the TSX or the date of notice by Urbana of termination of the bid. As at June 30, 2020, Urbana had purchased and cancelled 1,385,473 Class A shares pursuant to the 2019 NCIB at an average purchase price of \$2.46 per Class A share.

### **Mining Claims**

Urbana has owned mineral claims in Urban Township, Quebec for a number of years. Management monitors the exploration activity in the area on an ongoing basis and may carry out exploration work on its mineral claims if and when it is deemed suitable. Urbana holds 44 claims in the area totaling 1,154.4 hectares (2,852.7 acres). A report which summarizes both the exploration work and results to date has been completed and will assist in determining next steps.

Urbana has incurred mining expenditures totaling \$1.1M, all of which was incurred prior to 2019. These expenditures are recorded as a loss in computing "net realized gain on sale and disposal of investments" in the Interim Financial Statements, in accordance with IFRS 6 "*Exploration for and Evaluation of Mineral Resources*". Management has elected to expense exploration and evaluation costs related to the mineral claims as the property holds no known proven reserves or resources. Although the property has several interesting gold occurrences, there has been no ore body tonnage proven up at this time. The property is therefore still highly speculative. If ore body tonnage is proven up in the future, and the determination has been made to move into the development phase, then future expenditures on development will be capitalized and tested for impairment. The amount of money laid out on exploration has not been material for Urbana and is expected to continue to be immaterial for the near-term.

### **Dividend Policy and Dividend Declared**

Currently the Corporation has a dividend policy that it intends to pay a cash dividend to the shareholders as soon as practical after the end of each year. The amount of the dividend to be paid

is determined each year by the Board, taking into consideration all factors that the Board deems relevant, including the performance of the Corporation's investments, the economic and market conditions, and the financial situation of the Corporation.

On January 31, 2020, the Corporation paid a cash dividend of \$0.08 per share on the issued and outstanding common and Class A shares as at January 17, 2020. Pursuant to subsection 89(14) of the *Income Tax Act* of Canada (ITA) each dividend paid by Urbana qualifies as and is designated an eligible dividend for Canadian income tax purposes, as defined in subsection 89(1) of the ITA.

### **Outstanding Share Data**

As at August 12, 2020, the Corporation has 10,000,000 common shares and 37,990,027 Class A shares outstanding.

### **RELATED PARTY DISCLOSURES**

Caldwell Financial Ltd. ("CFL"), a company under common management with Urbana, is the parent company of CIM, the investment manager of Urbana, and of Caldwell Securities Ltd. ("CSL"). Urbana pays CIM investment management fees for investment management services that CIM provides to Urbana – refer to "Management Fees" below. As at June 30, 2020 Urbana had a 20% ownership interest in CFL.

CSL, a sister company of CIM and a registered broker and investment dealer, handles Urbana's portfolio transactions. The total amount of commission fees paid to CSL by Urbana in the six-month periods ended June 30, 2020 and 2019, and during the years ended December 31, 2019 and 2018, were \$20,454, \$73,621, \$179,281 and \$260,056 respectively. All securities transactions conducted through CSL are reviewed by Urbana's independent directors on a quarterly basis.

Pursuant to an administrative services agreement between Urbana and CSL dated and effective March 1, 2019 Urbana pays CSL a monthly fee of \$28,702 (HST inclusive) for administrative services, including investor relations, information technology, professional corporate office, and office and conference room access for Urbana's staff, directors and officers.

As at June 30, 2020 Urbana owned 50% of the voting class A common shares and 68.49% of the voting class B common shares of Radar Capital Inc. ("RCI"), a private capital company. Effective August 1, 2019, pursuant to RCI's shareholders' agreement, the previously held non-voting preferred shares of RCI were redeemed for a \$4.2M unsecured promissory note and the non-voting class B common shares became voting class B common shares. As a result, Urbana owns a total of 65.51% of the voting common shares of RCI with each class A and class B common share entitled to one vote. In March 2020, RCI distributed to its shareholders, shares of one of its investments, namely Metamaterial Inc., that went public. This distribution served to reduce the principal balance of the unsecured promissory note to \$2.1M.

As at June 30, 2020 Urbana had a 23.71% ownership interest in Caldwell Growth Opportunities Trust, which is a private equity pool managed by CIM – refer to "Summary of Investment Portfolio" above.

As at June 30, 2020 Urbana owned 49.26% of the common shares of CNSX Markets Inc., the operator of the Canadian Securities Exchange.

As at June 30, 2020 Urbana had a 47.44% direct ownership interest in Highview Financial Holdings Inc. (“HFHI”) and held a \$3.0M promissory note from HFHI. RCI had a 25.62% ownership interest in HFHI.

As at June 30, 2020, there were no fees payable to related parties, other than a management fee of \$1.3M payable to CIM.

During the six-month period ended June 30, 2020, Urbana, as lender, issued loans to three directors of the Corporation, Charles A. V. Pennock, George D. Elliott and Michael B. C. Gundy. Each loan agreement provides for a revolving credit facility of up to \$100,000 for each such director, which they may use for the sole purpose of purchasing Urbana shares. Interest is charged at the interest rate used by the Canada Revenue Agency to calculate taxable benefits for employees and shareholders from interest-free and low-interest loans. The securities of Urbana purchased by each director with funds advanced under each revolving credit facility are held in a broker’s account as security for the loan. As at June 30, 2020, the total outstanding principal amount of such loans is \$149,463, being \$50,090, \$26,921 and \$72,452 in respect of Messrs. Elliott, Gundy and Pennock respectively. As at June 30, 2020, Messrs. Gundy, Elliott and Pennock have purchased, respectively, 19,000 Common Shares, 9,900 Common Shares, and 6,000 Common Shares and 20,000 Class A Shares, of the Corporation with funds borrowed under each respective credit facility.

## **MANAGEMENT FEES**

Investment management fees were charged by CIM for portfolio management services in accordance with a fund management and portfolio management agreement effective as of August 10, 2011 between Urbana and CIM. Pursuant to such agreement, in 2019 CIM was entitled to an investment management fee equal to 1.5% per annum of the market value of Urbana’s investment portfolio. On December 6, 2019 Urbana entered into an updated investment management and advisory agreement with CIM, effective as of January 1, 2020. Pursuant to this agreement, CIM is entitled to an investment management fee equal to 2.0% per annum of the market value of Urbana’s investment portfolio, and, with the exception of NCIB purchases, CIM will pay a fee to CSL to cover all charges for brokerage, trade execution and other necessary investment-related services rendered directly or indirectly for the benefit of Urbana by CSL. The updated investment management and advisory agreement with CIM was unanimously approved by the Board, on the recommendation of the independent directors of the Corporation, which was based on, among other factors, advice from an independent financial advisory firm. In 2020 Q2, CIM earned \$1.3M of investment management fees from Urbana (2019 Q2 - \$1.0M). The investment management fees are accrued daily and paid quarterly in arrears. As at June 30, 2020 there was an investment management fee of \$1.3M payable to CIM (June 30, 2019 - \$1.0M).

## SUMMARY OF QUARTERLY RESULTS

The table below shows the key operating results of the Corporation for each of the eight most recently completed quarters:

	2 <sup>nd</sup> Quarter 2020 (\$)	1 <sup>st</sup> Quarter 2020 (\$)	4 <sup>th</sup> Quarter 2019 (\$)	3 <sup>rd</sup> Quarter 2019 (\$)
Realized gain	13,991,997	7,861,268	45,457	2,572,660
Change in unrealized gain (loss)	23,142,602	(59,361,039)	40,107,536	15,814,135
Dividend income	648,107	879,293	848,672	822,878
Interest income	184,050	36,986	91,205	49,612
Total expenses	1,696,689	2,144,626	2,004,909	1,664,371
Net income (loss) before income taxes	36,270,067	(52,728,118)	15,441,490	17,594,914
Net assets per share (beginning of period)	4.13	5.12	4.83	4.51
Net assets per share (end of period)	4.80	4.13	5.12	4.83
	2 <sup>nd</sup> Quarter 2019 (\$)	1 <sup>st</sup> Quarter 2019 (\$)	4 <sup>th</sup> Quarter 2018 (\$)	3 <sup>rd</sup> Quarter 2018 (\$)
Realized gain	286,079	984,014	2,204,679	1,009,623
Change in unrealized gain (loss)	9,953,631	13,692,840	(19,919,651)	(6,441,558)
Dividend income	756,625	650,364	689,543	621,651
Interest income	2,064	5,520	402,653	30,286
Total expenses	1,325,177	1,242,269	1,329,651	1,495,622
Net income (loss) before income taxes	9,673,222	14,090,469	(17,952,427)	(6,275,620)
Net assets per share (beginning of period)	4.32	4.15	4.46	4.57
Net assets per share (end of period)	4.51	4.32	4.15	4.46

The variations shown in the table above relate to the timing of investment decisions and do not reflect any general trends or seasonality.

## LIQUIDITY AND CAPITAL RESOURCES

The Corporation has no significant financial or contractual obligations other than a demand loan facility with a major Canadian bank – refer to “Demand Loan Facility” above. The Corporation currently holds approximately 64% of its assets, with a fair value of approximately \$173M, in cash and marketable securities. It has the liquidity to readily meet all of its operating expense requirements and its obligations under the loan facility.

In 2020 Q2, the Corporation did not conduct any additional financing activities. As at the date of this MD&A, the Corporation does not have any capital expenditure commitments, which the Corporation plans to fund from sources other than the existing loan facility or by liquidating some of its marketable securities.

Currently, holdings of readily marketable securities generate dividend income and can be disposed of with relative ease. Should in future the composition of its portfolio be weighted significantly more toward private investments, which do not produce income and cannot be readily sold, the Corporation may need to rely on its loan facility or issue securities to help meet its liquidity needs. There is no immediate need to rely on these liquidity sources.

## OFF-BALANCE SHEET ARRANGEMENTS

There are no off-balance sheet arrangements.

## CRITICAL ACCOUNTING ESTIMATES

The preparation of the Corporation’s financial statements in accordance with IFRS requires management to make estimates and exercise judgments that affect the reported amounts of assets

and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future period affected. The following discusses the most significant accounting judgments that Urbana has made in preparing the financial statements:

#### *Fair value measurement of private investments*

Urbana holds private investments that are not quoted in active markets and for which there may or may not be recent comparable transactions. In determining the fair value of these investments, Urbana has made significant accounting judgments and estimates. See Notes 1 and 2 of the Interim Financial Statements for more information on the fair value measurement techniques and types of unobservable inputs employed by the Corporation in its valuation of private investments.

#### **Changes in Accounting Policies**

There have been no changes in accounting policies during 2020 Q2 that affect the Corporation.

#### **DISCLOSURE CONTROLS AND PROCEDURES (“DC&P”) AND INTERNAL CONTROL OVER FINANCIAL REPORTING (“ICFR”)**

Urbana’s management (“Management”), under the supervision of its chief executive officer (“CEO”) and chief financial officer (“CFO”), is responsible for establishing and maintaining the Corporation’s DC&P and ICFR (as defined in National Instrument 52-109 – *Certification of Disclosure in Issuers’ Annual and Interim Filings*).

Consistent with NI 52-109, the Corporation’s CEO and CFO have reviewed the design of the Corporation’s DC&P and ICFR and have concluded that as at June 30, 2020 (A) the Corporation’s DC&P provide reasonable assurance that (i) material information relating to the Corporation has been made known to them, particularly during the financial quarter ended June 30, 2020 and (ii) information required to be disclosed by the Corporation in its annual filings, interim filings or other reports filed or submitted by it under securities legislation has been recorded, processed, summarized and reported within the time periods specified in securities legislation; and (B) the Corporation’s ICFR provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There have been no changes in the Corporation’s ICFR that occurred during the period beginning April 1, 2020 and ending on June 30, 2020 that have materially affected, or are reasonably likely to materially affect, the Corporation’s ICFR. All control systems contain inherent limitations, no matter how well designed. As a result, Management acknowledges that the Corporation’s ICFR will not prevent or detect all misstatements due to error or fraud. In addition, Management’s evaluation of controls can provide only reasonable, not absolute, assurance that all control issues that may result in material misstatements, if any, have been detected.

### ***FORWARD-LOOKING STATEMENTS***

*Certain information contained in this MD&A constitutes forward-looking information, which is information relating to possible events, conditions or results of operations of the Corporation, which are based on assumptions about future economic conditions and courses of action and which are inherently uncertain. All information other than statements of historical fact may be forward-looking information. Forward-looking information is often, but not always, identified by the use of words such as “seek”, “anticipate”, “budget”, “plan”, “continue”, “estimate”, “expect”, “forecast”, “may”, “will”, “project”, “predict”, “potential”, “target”, “intend”, “could”, “might”, “should”, “believe”, and similar words or phrases (including negative variations) suggesting future outcomes or statements regarding an outlook. Forward-looking information in this MD&A includes, but is not limited to, statements with respect to: the Corporation’s investment approach, objectives and strategy, including its focus on specific sectors; the structuring of its investments and its plans to manage its investments; the Corporation’s financial performance; and its expectations regarding the performance of certain sectors.*

*Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking information. The Corporation believes that the expectations reflected in the forward-looking information are reasonable but no assurance can be given that these expectations will prove to be correct. Some of the risks and other factors which could cause results to differ materially from those expressed in forward-looking information contained in this MD&A include, but are not limited to: the nature of the Corporation’s investments; the available opportunities and competition for its investments; the concentration of its investments in certain industries and sectors; the Corporation’s dependence on its management team; risks affecting the Corporation’s investments; global political and economic conditions; investments by the Corporation in private issuers which have illiquid securities; management of the growth of the Corporation; exchange rate fluctuations; and other risks and factors referenced in this MD&A including under “Business Objectives And Strategies, And Risk Factors”.*

*Although the Corporation has attempted to identify important factors that could cause actual events or results to differ materially from those described in forward-looking information, there may be other factors that cause events or results to differ from those intended, anticipated or estimated. Readers are cautioned that the foregoing list of risks and factors is not exhaustive. The forward-looking information contained in this MD&A is provided as at the date of this MD&A, based upon the opinions and estimates of management and information available to management as at the date of this MD&A, and the Corporation undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on forward-looking information contained in this MD&A.*
