(iv) Unsecured convertible promissory note initially maturing on June 30, 2023 has been extended to September 30, 2023 with interest continuing at 8% per annum payable quarterly. This promissory note was issued in connection with a \$3 million revolving line of credit and is convertible (in whole or in part) into common shares on the maturity date at \$1.07 per common share.

(v) Secured subordinated convertible note maturing on July 31, 2023 with interest at 12% per annum payable monthly. In lieu of a monthly cash interest payment, Kognitiv makes a payment-in-kind by capitalizing the interest payable on each monthly interest payment date. Subsequent to June 30, 2023, this note has been extended to July 31, 2024 on the same terms.

In addition to the investments listed above, Urbana holds 44 mining claims in Urban Township, Quebec. No mining expenditures were incurred in 2023 or 2022.

Urbana Corporation

Notes to the condensed interim financial statements for the six month periods ended June 30, 2023 and June 30, 2022

Urbana Corporation (“Urbana” or the “Company”) is an investment company that is not considered an investment fund for securities law purposes but is treated as an investment entity for accounting purposes.

The Company’s common shares (“Common Shares”) and non-voting class A shares (“Class A Shares”) are listed for trading on the Toronto Stock Exchange (“TSX”) and the Canadian Securities Exchange (“CSE”). Its registered head office is located at 150 King Street West, Suite 1702, Toronto, Ontario, M5H 1J9.

Urbana’s strategy is to seek out, and invest in, private investment opportunities for capital appreciation and invest in publicly traded securities to provide growth, income and liquidity.

1. Summary of significant accounting policies

Basis of presentation

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as published by the International Accounting Standards Board (“IASB”) and as required by Canadian securities legislation and the Canadian Accounting Standards Board. They are presented in compliance with International Accounting Standard 34 “*Interim Financial Reporting*”.

The Company qualifies as an investment entity under IFRS 10 “*Consolidated Financial Statements*”.

Statement of compliance

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Judgments and estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions, which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the period. Actual results could differ from those estimates. Significant judgments and estimates included in the financial statements relate to the valuation of level 3 investments and settlement of the deferred income tax liability.

Classification and measurement of investments

In classifying and measuring financial instruments held by the Company, Urbana is required to make significant judgments about the Company’s business model for managing its financial instruments, and whether or not the business of the Company is to manage the financial assets with the objective of realizing cash flows through the sale of the assets for the purpose of classifying certain financial instruments at fair value through profit or loss (“FVTPL”).

Valuation of investments

Investments are measured at fair value in accordance with IFRS 13 “*Fair Value Measurement*”. Publicly traded securities are valued at the close price on the recognized stock exchange on which the securities are listed or principally traded, provided the close price is within the bid-ask spread.

Securities which are listed on a stock exchange or traded over-the-counter and which are subject to a hold period or other trading restrictions are valued as described above, with an appropriate discount as determined by management.

Urbana Corporation

Notes to the condensed interim financial statements
for the six month periods ended June 30, 2023 and June 30, 2022

1. Summary of significant accounting policies (continued)

Investments for which reliable quotations are not readily available, or for which there is no closing bid price, including securities of private issuers, are valued at fair value using management's best estimates. A number of valuation methodologies may be considered in arriving at fair value, including comparable company transactions, earnings multiples, the price of a recent investment, net assets, discounted cash flows, industry valuation benchmarks, available market prices and formulas prescribed by applicable shareholder agreements. During the initial period after an investment has been made, cost translated using the period end foreign currency exchange rate may represent the most reasonable estimate of fair value. Unrealized gains and losses on investments are recognized in the Statements of Comprehensive Income (Loss).

The Company takes its own credit risk and the risk of its counterparties into account in determining the fair value of financial assets and financial liabilities, including derivative instruments. Management has reviewed its policies concerning valuation of assets and liabilities and believes that the fair values ascribed to the financial assets and financial liabilities in the Company's financial statements incorporate appropriate levels of credit risk.

There are inherent uncertainties in the process of valuing investments for which there are no published markets. Management uses various valuation techniques with unobservable market inputs in its determination of fair value of private investments, those most significant of which are disclosed in Note 2. Management exercises judgment in the determination of certain assumptions about market conditions existing at the date of the financial statements in the application of the chosen valuation techniques. As such, the resulting values may differ from values that would have been used had a ready market existed for the investments and may differ from the prices at which the investments may be sold.

Refer to Note 2 for the classification of the fair value measurements.

Mining Claims

In accordance with IFRS 6 "*Exploration for and Evaluation of Mineral Resources*", Urbana has elected to expense exploration and evaluation costs given that its mineral claims hold no known proven reserves or resources.

Segmented information

The Company is organized as one main operating segment, namely the management of the Company's investments, in order to achieve the Company's investment objectives.

Functional and presentation currency

The Company considers its functional and presentation currency to be the Canadian dollar, which is the currency of the primary economic environment in which it operates. The Company's performance is evaluated and its liquidity is managed in Canadian dollars.

Foreign currency translation

The monetary assets and liabilities of the Company are translated into Canadian dollars, the Company's functional currency, at exchange rates in effect at the date of the statement of financial position. Non-monetary items are translated at rates of exchange in effect when the assets were acquired or obligations incurred. Foreign exchange gains and losses are included in the Statements of

Urbana Corporation

Notes to the condensed interim financial statements for the six month periods ended June 30, 2023 and June 30, 2022

1. Summary of significant accounting policies (continued)

Comprehensive Income (Loss). Purchases and sales of investments, investment income and expenses are calculated at the exchange rates prevailing on the dates of the transactions.

Financial instruments

The Company's financial instruments are comprised of cash, investments, accounts and other receivables, loan payable, and accounts payable and accrued liabilities. The Company recognizes financial instruments at fair value upon initial recognition. The Company measures the expected credit loss ("ECL") allowance on accounts and other receivables at an amount equal to the 12 month expected credit losses. Given the short-term nature of accounts and other receivables and the high credit quality, the Company has determined that the ECL allowance is not material.

Investments have been classified at FVTPL with gains and losses recorded in net income. Cash, accounts and other receivables are measured at amortized cost. Loan payable and accounts payable and accrued liabilities are measured at amortized cost. The carrying values approximate their fair values due to their short-term maturities.

Transaction costs

Transaction costs are expensed as incurred and are included in "Transaction costs" in the Statements of Comprehensive Income (Loss). Transaction costs are incremental costs that are directly attributable to the acquisition or disposal of an investment, which include fees and commission paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties.

Deferred income taxes

The Company accounts for deferred income taxes using the liability method, whereby deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and measured using substantively enacted income tax rates and laws that are expected to be in effect when the differences are expected to reverse. Income tax expense for the period is the tax payable for the period and any change during the period in the deferred tax assets and liabilities. A deferred tax asset will be recognized to the extent that it is probable that it will be realized.

Investment transactions and income recognition

Investment transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Realized gains and losses from investment transactions and unrealized net gain or loss on foreign exchange and investments are calculated on an average cost basis.

Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the total profit (loss) for the year by the weighted average number of Common Shares outstanding during the year, including contingently issuable shares, which are included when the conditions necessary for issuance have been met. Diluted earnings (loss) per share reflects the assumed conversion of all dilutive securities using the "treasury stock" method for purchase warrants and stock options.

Interests in Other Entities

The table below presents the unconsolidated subsidiaries of the Company as at June 30, 2023 and December 31, 2022:

Subsidiary's Name	Place of Business	% of Equity Interest held by Urbana	% of Voting Rights held by Urbana
Urbana International Inc. ⁽¹⁾	United States	100%	100%
Radar Capital Inc.	Toronto	65.51%	65.51%

⁽¹⁾ UII, a wholly-owned subsidiary of Urbana, holds units of Blue Ocean Technologies, LLC.

2. Fair value measurement

Fair value measurements of the investments are classified based on a three-level hierarchy that reflects the significance of the inputs used in making the measurements. The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Transfers between the levels of the fair value hierarchy are deemed to occur on the date of the event or change in circumstances that caused the transfer.

The following is a summary of the Company's investments categorized in the fair value hierarchy as at June 30, 2023:

Investments	Level 1	Level 2	Level 3	Total

Change in valuation methodology

During 2023, the Company changed the primary valuation technique for FundThrough Inc. from a methodology based on EV/revenue and EV/net interest income multiples to a methodology based on a recent market transaction since a recent market transaction was more suitable in determining fair value. Also during 2023, the Company changed the primary valuation technique for the Class A2, B3 and C1 preferred shares of Vive Crop Protection Inc. (“Vive”) from a methodology based on an EV/revenue multiple to a methodology based on recent market transactions since recent market transactions were more suitable in determining fair value.

During 2022, the Company changed the primary valuation technique for Miami International Holdings Inc. from a methodology based on a recent market transaction to a methodology based on an EV/revenue multiple as there was no recent market transaction. In the absence of a recent transaction, the EV/revenue multiple methodology was more suitable in determining fair value. Also during 2022, the Company changed the primary valuation technique for the Class B and Class C preferred shares of Evolve Funds Group Inc. from a methodology based on EV as a % of AUM to a methodology based on a recent market transaction since a recent market transaction was more suitable in determining fair value. Lastly during 2022, the Company changed the primary valuation technique for the Class B1 preferred shares of Vive from a methodology based on an EV/revenue multiple to a methodology based on a recent market transaction since a recent market transaction was more suitable in determining fair value.

Level 3 valuation methods - December 31, 2022

Description	Input	Sensitivity used ⁽¹⁾	Effect on fair value (\$)
Private equity investments	1 x net fees plus net assets	10%	316,800
	Recent transaction price	10%	12,771,583
	Net asset value	10%	1,345,180
	EV as a % of assets under mgt. – Highview	1%	8,545,535

	EV/LTM revenue multiple - Vive ⁽²⁾	2.4%	1,461,256
	Average EV/LTM revenue/net interest income multiple - FundThrough	10%	967,663
Private debt investments	Face value	10%	500,000
Total			27,403,409

⁽¹⁾ The sensitivity analysis refers to a percentage or multiple added or deducted from the input and the effect this has on the fair value while all other variables were held constant.

⁽²⁾ The sensitivity has been performed on the total equity price given the valuation approach takes into account that the preferred shares have liquidation preference to the common shares. Based on the sensitivity performed, there is sufficient equity value to support Urbana's holdings in the respective preferred share classes.

During 2023 and 2022, there were no transfers into/out of Level 1, Level 2 or Level 3 investments.

3. Financial instruments and risk management

The Company's activities expose it to a variety of financial risks. Management seeks to minimize potential adverse effects of these risks on the Company's performance by employing professional, experienced portfolio advisors, and through daily monitoring of the Company's position and market events.

Credit risk

Credit risk represents the potential loss that the Company would incur if the counterparties failed to perform in accordance with the terms of their obligations to the Company. The Company maintains all of its cash at its custodian or in overnight deposits with a Canadian chartered bank. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. As at June 30, 2023, the Company held \$4,000,000 (December 31, 2022 – \$5,000,000) in debt instruments. The fair value of the debt instruments includes a consideration of the credit worthiness of the debt issuer and the security provided against the outstanding amount. The carrying amounts of debt instruments and other assets, as disclosed in the statements of financial position, represent the maximum credit exposure. The Company measures credit risk and lifetime ECLs related to accounts and other receivables using historical analysis and forward looking information in determining the ECLs.

3. Financial instruments and risk management (continued)

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligation when due. The following tables detail the Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of the financial liabilities based on the earliest date on which the Company can be required to pay.

June 30, 2023		3 months			Total
Financial Liabilities	Due on demand	< 3 months	to 1 year		
	\$	\$	\$		\$
Loan payable	38,800,000	-	-		38,800,000
Accounts payable and accrued liabilities	-	999,266	-		999,266
	38,800,000	999,266	-		39,799,266

December 31, 2022		3 months			Total
Financial Liabilities	Due on demand	< 3 months	to 1 year		
	\$	\$	\$		\$
Loan payable	32,000,000	-	-		32,000,000
Accounts payable and accrued liabilities	-	1,149,862	-		1,149,862
	32,000,000	1,149,862	-		33,149,862

Liquidity risk is managed by investing in assets that are traded in an active market and can be readily sold or by borrowing under its credit facility (Note 6). The Common Shares and Class A Shares cannot be redeemed by shareholders. The Company endeavors to maintain sufficient liquidity to meet its expenses.

Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the Canadian dollar. The Company is exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. When the value of the Canadian dollar falls in relation to foreign currencies, then the value of foreign investments rise. When the value of the Canadian dollar rises, the value of foreign investments falls.

The table below indicates the currencies to which the Company had significant exposure as at June 30, 2023 and December 31, 2022:

	June 30, 2023	December 31, 2022
Currency	As a % of net assets	As a % of net assets
	%	%
United States Dollar	41.37	41.30

As at June 30, 2023, the Company's net assets would have decreased or increased by approximately \$6,381,882 (December 31, 2022 - \$6,394,016) in response to a 5% appreciation or depreciation of the Canadian dollar, with all other variables held constant. In practice, the actual results may differ materially.

Interest rate risk

Interest rate risk arises on interest-bearing financial assets such as cash and debt securities held and on financial liabilities such as loan payable. The Company is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. The Company's interest income and expense are positively correlated to interest rates in that rising interest rates increase both the interest income and expense while the reverse is true in a declining interest rate environment.

Urbana Corporation

Notes to the condensed interim financial statements for the six month periods ended June 30, 2023 and June 30, 2022

3. Financial instruments and risk management (continued)

The table below summarizes the Company's exposure to interest rate risks by remaining term to maturity.

As at June 30, 2023	Less than 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
	\$	\$	\$	\$	\$
Cash	1,276,710	-	-	-	1,276,710
Financial asset – debt	3,000,000	1,000,000	-	-	4,000,000
Loan payable	(38,800,000)	-	-	-	(38,800,000)
	(34,523,290)	1,000,000	-	-	(33,523,290)

As at December 31, 2022	Less than 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
	\$	\$	\$	\$	\$
Cash	268,579	-	-	-	268,579
Financial asset – debt	5,000,000	-	-	-	5,000,000
Loan payable	(32,000,000)	-	-	-	(32,000,000)
	(26,731,421)	-	-	-	(26,731,421)

As at June 30, 2023, had prevailing interest rates increased or decreased by 1%, with all other variables held constant, the net assets would have decreased or increased by approximately \$150,347 (2022 - \$94,662). In practice, the actual results may differ materially.

Other market risk

Other market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. Any equity and derivative instrument that the Company may hold is susceptible to market price risk arising from uncertainties about future prices of the instruments. Management moderates this risk through a careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk resulting from financial instruments is equivalent to their fair value.

The most significant exposure for the Company to other price risk arises from its investment in publicly and privately traded securities. As at June 30, 2023, for publicly traded securities, had the prices on the respective stock exchanges for these securities increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$15,924,298 (December 31, 2022 - \$ 16,619,231) or approximately 5.16% (December 31, 2022 – 5.37%) of total net assets. In practice, the actual results may differ materially. Management is unable to meaningfully quantify any correlation of the price of its privately owned equities to changes in a benchmark index.

Capital management

Management manages the capital of the Company which consists of the net assets, in accordance with the Company's investment objectives. The Company is not subject to any capital requirements imposed by a regulator. The Company must comply with the covenants on the loan payable (Note 6).

Urbana Corporation

Administrative fees	-	53,900
Other	-	10,780
	999,266	1,149,862

6. Loan payable

Pursuant to a loan facility agreement between the Company and a major Canadian bank (the "Bank") dated July 2, 2021, the Bank provides a demand loan facility to the Company which allows Urbana to borrow up to \$50,000,000. Interest is charged on the outstanding balance of the loan facility at the Bank's prime rate plus 0.25%, calculated on a daily basis and paid monthly. The loan facility is secured by a general charge on the Company's assets. Proceeds from the loan may be used to make additional investments and/or for general corporate purposes. As at June 30, 2023, the outstanding balance of the loan was \$38,800,000 (December 31, 2022 - \$32,000,000) which is the fair value of the loan. During the six month period ended June 30, 2023, the minimum amount borrowed was \$32,000,000 (2022 - \$19,400,000) and the maximum amount borrowed was \$39,800,000 (2022 - \$30,700,000). As at June 30, 2023 and December 31, 2022, the Company has complied with all covenants, conditions and other requirements of the loan facility.

7. Mining claims

Urbana has owned mineral claims in Urban Township, Quebec for a number of years. Management monitors the exploration activity in the area on an ongoing basis and may carry out exploration work on its mineral claims if and when it is deemed suitable. Urbana holds 44 claims in the area totaling 1,154.4 hectares (2,852.7 acres). A report which summarizes both the exploration work and results to date has been completed and will assist in determining next steps. In accordance with IFRS 6 "Exploration for and Evaluation of Mineral Resources", Urbana has elected to expense exploration and evaluation costs given that its mineral claims hold no known proven reserves or resources. Urbana has incurred costs totaling \$1,146,119, all of which were incurred prior to 2019. These costs have been expensed as incurred and recorded as a loss in net realized gain on sale and disposal of investments.

Urbana Corporation

Total	41,395,100	98,760,119	41,395,100	98,760,119

The Common Shares and Class A Shares have been classified as equity in these financial statements as the holders of these shares have no contractual rights that would require the Company to redeem the shares.

On August 31, 2022, the TSX accepted Urbana's notice of intention to conduct a normal course issuer bid to purchase up to 3,139,548 of its own Class A Shares (the "NCIB"), representing 10% of the public float, pursuant to TSX rules. Purchases under the NCIB were permitted starting on September 7, 2022, and will terminate on the earlier of September 6, 2023, the date Urbana completes its purchases pursuant to the notice of intention to conduct a normal course issuer bid filed with the TSX, and the date of notice by Urbana of termination of the bid. Purchases are to be made on the open market by Urbana through the facilities of the TSX or the CSE in accordance with the rules and policies of the TSX. The price that Urbana may pay for any such shares is to be the market price of such shares on the TSX or the CSE at the time of acquisition. The Class A Shares purchased under the NCIB must be cancelled. Urbana is not to purchase on any given day, in the aggregate, more than 4,342 Class A Shares ("Daily Restriction"), being 25% of the average daily volume for the most recently completed six months prior to the filing of the NCIB with the TSX, which is 17,369 Class A Shares, calculated in accordance with the TSX rules. Notwithstanding the Daily Restriction, Urbana may make one purchase of more than the Daily Restriction in any given week in accordance with the TSX's block purchase rules. As at June 30, 2023, Urbana has purchased and cancelled 290,000 Class A Shares at an average price of \$3.95 per share pursuant to the NCIB.
