- Focus on policies that encourage those who contribute to economic growth, such as workers and entrepreneurs
- Put Canada's prosperity ahead of personal, party and special interests
- Realize Canada is in danger of losing the young talent needed to build our country's future, as other countries outbid us with faster-growing economies, better job prospects and lower taxes
- Appreciate and celebrate Canada's great history and accomplishments at home and abroad
- Restore confidence in government and pride in our country
